

ArtPro

Web Application

ArtPro is a web application which presents emotion and expression of one through various forms of art creations.

A website showing the different types of art form that are widely available in this world. Art form that can be used to express one's true inner self by showcasing one's emotions and expressions. ArtPro aims to provide example to others about the beauty that is hidden beneath one self. Mainly, ArtPro will act as a media information system for artists and non-artists to express their inner self.
